

nothingKnew

Product Manager

github.com/knewnothing-git | candidates.intervues.club/u/nothingknew

SUMMARY

Experienced Program & Quality Lead and Senior Software Testing Specialist targeting Product Management roles. Proven track record in end-to-end planning, multi-milestone release execution, and cross-functional team coordination for enterprise software platforms. Skilled in release readiness, program risk mitigation, and establishing quality processes.

EXPERIENCE

Senior Software Testing Specialist / Program & Quality Lead

Renishaw Metrology System Limited – Pune

Jul 2019 – Present

- Drove end-to-end planning and execution of multiple enterprise software programs across globally distributed teams.
- Served as Subject Matter Expert for system-level quality and release readiness in partnership with R&D teams.
- Led multi-milestone release planning, dependency tracking, and execution governance for platform-scale software.
- Established and enforced quality processes, framework metrics, and cross-boundary risk mitigation strategies.
- Communicated program status and risk updates to senior stakeholders while mentoring quality engineers.

Senior Software Testing Specialist / Program & Quality Lead

Renishaw Metrology System Limited – Pune
