SUMMARY

Software Engineer with a background in building scalable web applications and data dashboards. Experienced in full-stack development using React, Node.js, Express, and MongoDB, along with modern frameworks like Next.js and TypeScript. Holds a Bachelor of Technology degree from Dr B R Ambedkar National Institute of Technology Jalandhar.

EXPERIENCE

SDE Intern

Kodacy

Jun 2025 – Jul 2025

- Developed a full-stack grocery web application using React.js, Node.js, Express.js, and MongoDB featuring product browsing, cart management, and online order placement.
- Architected a scalable client-server platform to enable direct customer-vendor transactions through secure database-driven operations.

EDUCATION

Dr B R Ambedkar National Institute of Technology Jalandhar · Bachelor of Technology · 2022 – 2026

Bhuvnesh Bal Vidhyalaya, Kota, Rajasthan · CBSE(Class XII) · 2020 – 2021

SKILLS

Languages and Frameworks: C++, CSS, DAX, HTML, HTML5, Java, JavaScript, Jupyter Notebook, Python, TypeScript, Express, NextJs, Node.js, ReactJs, ShadcnUI, Tailwind

Databases: MongoDB

Tools: Appwrite, GitHub, Google Collab, Matplotlib, NumPy, Pandas, Power BI, Twilio

PROJECTS

CarePulse

Healthcare patient management system Built a healthcare patient management system enabling patient registration, appointment booking, and management using Next.js, TypeScript, ShadcnUI, Appwrite, and Twilio. Integrated Appwrite for secure authentication and database management alongside Twilio for notification services.

Next.js, TypeScript, ShadcnUI, Appwrite, Twilio

TrackMySpend – Power BI Dashboard

Personal finance tracking dashboard Engineered a personal finance dashboard in Power BI to track yearly income, expenses, and savings across 10+ categories utilizing interactive slicers and KPIs. Implemented DAX functions to automate financial calculations and data analysis.

Power BI, DAX

AWARDS

3rd place in Robo Soccer competition, 2nd place in Written Poetry Competition
