SUMMARY

Software Engineer with background in full-stack web application development and frontend engineering. Experienced in building responsive, user-friendly web interfaces and implementing backend services and RESTful APIs using modern JavaScript technologies. Holds a Bachelor of Engineering degree.

EXPERIENCE

Frontend Developer Intern

Y-SAAS Infotech (OPC) Pvt. Ltd.

Dec 2025 – May 2026

- Built responsive and user-friendly web interfaces utilizing modern web technologies.
- Developed and integrated UI components, achieving cross-browser compatibility and optimized application performance.
- Engineered and tested RESTful APIs to deliver core backend functionality.
- Integrated frontend components with backend services to enable seamless data flow and user interaction.

EDUCATION

International School of Business & Media · Bachelor of Engineering - BE · 2020 – 2024

Savitribai Phule Pune University · Bachelor of Engineering - BE · 2020 – 2024

ISB&M School of Technology, Pune · Bachelor of Engineering · 2024

SKILLS

Languages and Frameworks: CSS, HTML, JavaScript, Python, SQL, Express.js, Next.js, Node.js, React Bootstrap, React.js, Redux Toolkit, Tailwind CSS

Databases: MS SQL, MySQL

Tools: Axios, Context API, Git, GitHub, Postman, RESTful APIs

PROJECTS

B2B Agri Trading Platform

Developed a full-stack B2B agri-commerce platform for browsing agricultural commodities, exploring products, managing a product catalogue, submitting commodity inquiries, managing details. Architected full-stack trading application using React.js, Redux Toolkit, Node.js, Express.js, and MySQL. Implemented responsive UI using Tailwind CSS and integrated API communication using Axios and Multer.

React.js, Redux Toolkit, Node.js, Express.js, MySQL, Tailwind CSS, Axios, Multer

Student Management System

Developed a full-stack web application to manage student information and academic records. Implemented secure JWT authentication, email-based credential systems, user registration, and an admin dashboard. Built responsive interfaces using React Bootstrap and integrated REST endpoints using Node.js, Express.js, and MySQL.

React.js, Node.js, Express.js, MySQL, React Bootstrap, Axios

EduBoard — Assignment & Review Dashboard

Developed a role-based assignment and review dashboard with separate Student and Teacher interfaces. Created interfaces for assignment management, submission handling, progress tracking, and theme switching. Utilized React.js, Tailwind CSS, Recharts, and Context API for global state and data visualization.

React.js, Tailwind CSS, Recharts, Context API

Additional projects: b2b-agri-trading-platform, student-management-system, plant-store, assignment-review-dashboard, product-admin, vaibhavsontakke837/temple-app

AWARDS

Accenture North America - Data Analytics and Visualization Job Simulation, Power BI Micro Course, MERN Stack Web Development Certification, MySQL Certification, Python Certification
