

Yogesh Dhakane

Software Engineer

github.com/yogesh357 | candidates.intervues.club/u/yogesh-dhakane

SUMMARY

Software Engineer with experience in full-stack web application development, responsive user interfaces, and backend integration. Skilled in developing REST APIs, database queries, and deployment workflows using modern frameworks and tools. Demonstrates a history of technical leadership, project delivery, and rapid advancement into full-time engineering roles.

EXPERIENCE

Software Developer – Full-Time

Indomitech Global

Apr 2026 – Jul 2026

- Earned promotion to full-time Software Developer following strong performance as an intern.
- Developed responsive React and Next.js interfaces while integrating backend services for key accounting and business workflows.
- Designed and optimized REST APIs, database queries, and deployment workflows to increase system reliability and application performance.

Software Developer Intern (Part-Time)

Quant V

Feb 2026 – Apr 2026

- Developed and maintained full-stack web applications in an agile environment concurrent with other software engineering engagements.
- Built and deployed production-grade applications leveraging React, Next.js, Node.js, and PostgreSQL to enhance multi-client workflows.
- Integrated third-party APIs and delivered assigned features on schedule.

Software Developer – Full-Time

Indomitech Global

Jan 2026 – Apr 2026

- Earned promotion to full-time Software Developer following strong performance as an intern.
- Developed responsive React and Next.js interfaces while integrating backend services for key accounting and business workflows.
- Designed and optimized REST APIs, database queries, and deployment workflows to increase system reliability and application performance.

Software Developer

Indomitech Group | Web Design & Web Development Company in Kolkata

Jan 2026 – Jul 2026

- Contributed to web development and engineering projects for the organization.

President – University Technical Club

Enlectic Research Centre (ERC)

Aug 2024 – Present

- Led a 25+ member technical team, overseeing project timelines, task delegation, and end-to-end execution.
- Presented technical updates and project outcomes at college and club events.
- Organized 4+ technical events, cultural activities, hackathons, and workshops.

President – University Technical Club

Enlectic Research Centre

Sep 2023 – Present

- Led a 25+ member technical team, overseeing project timelines, task delegation, and end-to-end execution.
- Presented technical updates and project outcomes at college and club events.
- Organized 4+ technical events, cultural activities, hackathons, and workshops.

EDUCATION

Government College of Engineering and Research, Avasari Khurd · Bachelor of Engineering · 2023 – 2027

Savitribai Phule Pune University · Bachelor of Engineering - BE · 2023 – 2027

SKILLS

Languages and Frameworks: CSS3, Express.js, Go, GSAP, HTML, HTML5, JavaScript, JavaScript (ES6+), Liquid, MERN Stack, Next.js, Node.js, Python, React.js, Redux Toolkit, SQL, Tailwind CSS, TypeScript

Databases: MongoDB, MySQL, PostgreSQL, Redis

Tools: Cloudinary, Docker, Drizzle, Git, GitHub Actions, JWT, Mongoose, Prisma, REST APIs, Vercel

PROJECTS

Next.js E-commerce Store

Architected a server-side rendered storefront using the Next.js App Router for optimal SEO and fast initial page loads. Integrated Sanity CMS for headless, dynamic product management. Architected a server-side rendered storefront using the Next.js App Router to optimize page loads and SEO performance. Integrated Sanity CMS for headless, dynamic product management.

Next.js, Sanity CMS, Tailwind

Green Cart – Grocery Platform

Engineered a full-stack grocery platform with product management, cart handling, and end-to-end order processing. Integrated the Stripe payment gateway and JWT-based authentication. Engineered a full-stack grocery platform supporting product management, cart features, and end-to-end order handling. Integrated the Stripe payment gateway and implemented secure JWT-based authentication.

MERN Stack, Redis, Stripe

AWARDS

Promoted to full-time Software Developer at Indomitech Global
